CNN – Anderson Cooper

Dear Anderson,

I am a former staff member of the Church of Scientology and worked at the International level of administration from 1989 to 2004. I worked in both Finance and as a member of WDC. This is 15 year period. As such I am a true bona fide witness.

I knew Rathbun, Rinder and DeVocht well and was involved in the meetings they attended.

...

The only incident I did witness was Tom DeVocht attempting to strike a member of the Finance Office at a meeting but being restrained by others close by. It was found that DeVocht had violated policies regarding incurring large expenses without authorization and he was demoted. In my view he should have been dismissed at that time.

...

It is obvious to me then that these 3 must have an axe to grind and can only see that their revenge is to fabricate lies. However to go to such extent to spread them is indicative of a deeper agenda to attack the Church.

I hope your investigation probes into this.

Understand that as a top member of the Church I had many dealings and meetings with Mr. David Miscavige concerning my zones of responsibility and they were constructive... I had every respect for him. He is extremely intelligent, dynamic, communicative and inspires confidence.

Sincerely,

DF
